

Understanding the Registry

Qualified Physician Reset Password Instructions

Step 1: Navigate to the [Medical Marijuana Use Registry](#) and click “Login.”

Step 2: You are brought to the login screen. Click “Forgot Password.”

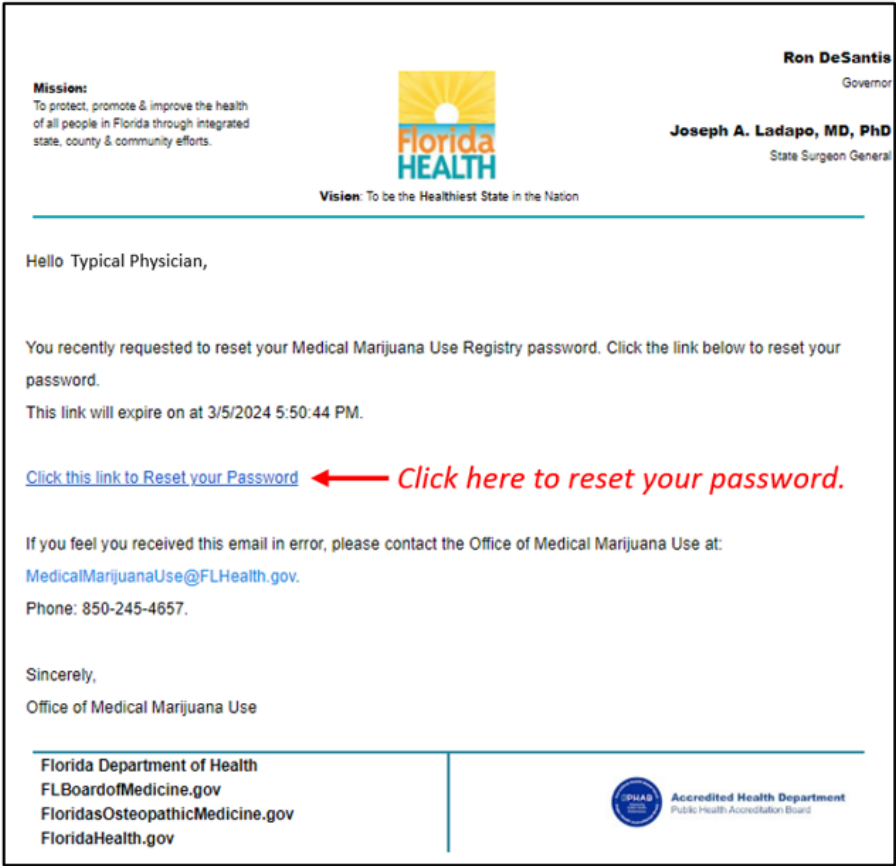

Step 3: You are brought to the “Forgot Password” screen. Enter your username, then click “Submit.” If you entered your username correctly, an email will be sent to the email address associated with that username.

Important note: Your Username (Login ID) is the one you created when you initially self-registered in the Registry.

Step 4: Locate and open the email with “Medical Marijuana Use Registry User Account Password Reset” as the subject line. This email contains a link to reset your password.

If you do not find the email in your inbox, [click here](#) for additional information.

Step 5: Click on the link provided in the email. This link takes you to the Registry’s home page.

Step 6: Enter your new password. You need to add a password to your Registry account that is unique to you. It must be at least 12 characters long, may not be the same as your previous 5 passwords, and must include one of each of the following:

- a) Lowercase letters (a-z)
- b) Uppercase letters (A-Z)
- c) Numbers (0-9)
- d) Special characters (e.g., !"#\$%&'()*+)

You can click the eye icon (👁) to see what you are typing.
